

MATTHEW L. STAIRS, B.A.SC., P.Eng.

Mr. Stairs is a founding principal in the firm with over 30 years experience in construction and consulting engineering in the Province of Ontario. Mr. Stairs' experience includes detailed engineering design of municipal servicing, roads, and stormwater management features, preparation of numerous servicing, transportation and environmental studies, the management of diverse project teams working on large multi-faceted projects, construction supervision, contract administration, contract negotiations, cost sharing agreements and analyses. His client base includes municipal, provincial and federal government agencies, private land developers, Conservation Authorities, design build contractors, and petroleum companies.

EDUCATION & PROFESSIONAL AFFILIATIONS

- B.A.Sc. Civil Engineering, University of Toronto, 1978
- Member of Association of Professional Engineers, Province of Ontario since 1980
- Designated Consulting Engineer by the Professional Engineers of Ontario since 1987
- Registered Professional Engineer in the Province of British Columbia
- Registered Professional Engineer in the Province of Alberta

CAREER EXPERIENCE

Mr. Stairs began his engineering career in 1978 after graduating from the University of Toronto with a degree in Civil Engineering, as an estimator/site superintendent for a large road construction contractor in Northern Ontario. In 1981 he joined F.J. Reinders and Associates Canada Limited as a Project Engineer working on a wide variety of industrial and residential subdivision developments. By 1985 he was the Senior Municipal Engineer for the firm and was promoted to be Manager of the Municipal Department in 1989. At the time of his resignation from F.J. Reinders and Associates, Mr. Stairs was in the position of Manager of the Transportation Engineering Department.

In 1996, Mr. Stairs founded MGM Consulting Inc. with the intent of providing professional planning and engineering services to the development industry and to various government agencies. In his current role with MGM Consulting, Mr. Stairs is responsible for all engineering design work, the preparation of environmental and engineering studies, the management of larger multi-faceted projects, supervision of technical and support staff. As President of the company, he assumes corporate responsibility for the professional consulting services provided by the firm.
